Contributions: Manuscripts should be typewritten, double spaced, and the original copy should be submitted. Every effort will be made to return unused manuscripts, if request is made, but no responsibility can be accepted for failure to do so. Anonymous communications will receive no consideration whatever.

Manuscripts and news items of interest to the membership of the society are solicited.

Forms close on the first and fifteenth of each month. The early submission of material will insure more consideration for publication.

Published semi-monthly by the Chicago Dental Society, Publishing, Editorial and Advertising Office, 30 North Michigan Avenue, Chicago 2, RAndolph 6-4076. Annual subscription \$2.50; single copies 15 cents; circulation 3,400 copies.

THE CALENDAR

- May 17:** CHICAGO DENTAL SOCIETY: Regular monthly meeting and installation of officers will take place in the Waldorf Room of the Conrad Hilton Hotel, 8:00 p.m. Our speaker will be Mr. Edward McFaul, a well-known lecturer who is best described as a "serious-humorist." Ladies are especially invited.
- May 17:** WEST SUBURBAN STUDY CLUB: Second Annual Monte Carlo Night will be held at Woodridge Country Club. Please turn to page 10 for details.
- May 18:** NORTHWEST SIDE BRANCH: Annual Ladies' Night and installation of officers at Tam O'Shanter Country Club. A full evening of entertainment with a cocktail party, dinner, and dancing to Len Biggett and his orchestra.
- May 18:** ALPHA OMEGA FRATERNITY: Annual golf outing and dinner at Cog Hill Country Club.
- May 20:** CHICAGO ACADEMY OF DENTAL PSYCHOSOMATICS: Regular meeting will be held at the Conrad Hilton Hotel. Private Dining Room 4, at 8:00 p.m. Dr. Milton H. Erickson will speak on "Hypnotherapy in Dentistry."
- May 20:** NAVAL DENTAL RESERVE: Meeting at the Naval Armory, 8:00 p.m. See page 27 for details.
- May 25:** WEST SIDE BRANCH: Annual golf outing and dinner at the Midwest Country Club.
- May 26:** CHICAGO DENTAL ASSISTANTS ASSOCIATION: A dinner-meeting and installation of officers at the Columbia Yacht Club. Turn to page 27 for further information.

Newly-Elected Officers to Be Installed At May Monthly Meeting

On Tuesday evening, May 17, the recently-elected officers of the Chicago Dental Society will be officially installed in office by Society President Samuel R. Kleiman. This ceremony is the last official act of President Kleiman before the Society, although his actual tenure maintains until June first.

The newly-elected President, Dr. Gustav W. Solfronk, will have the aid and assistance of an experienced group of officers during his term as president. Dr. L. W. M. Hughes will serve with Dr. Solfronk as Vice-president, his Secretary will be Dr. Walter E. Dundon, and Dr. Harold H. Hayes will serve with him as Treasurer. President-elect for the coming year is Dr. Edward W. Luebke, who will assume direction of the Society's affairs on June 1, 1956.

The Board of Directors will see three new faces with Dr. Benjamin P. David-

son representing the Northwest Side Branch, Dr. Earl S. Elman representing the North Side Branch and Dr. Clarence A. Hanson representing the West Suburban Branch.

Retiring directors are Dr. Walter J. Nock, Dr. B. Placek and Dr. William O. Vopata.

Dr. Gustav W. Solfronk, President

PRESIDENT

Dr. Gustav W. Solfronk advances to the presidency of the Chicago Dental Society with a rich background of experience in Society affairs. Known everywhere and well-liked wherever he is known, Gus Solfronk has worked hard for dentistry and is well-deserving of his reputation for industry and administrative drive. Graduating from Chicago College of Dental Surgery, Loyola University, in 1924 Dr. Solfronk opened his practice on the Southwest Side of the city and has been on West 63rd Street since 1932. He has been Secretary of the Chicago Dental

Society, its Treasurer, its Vice-president, and served during the year past as President-elect. As Chairman of the 1955 Midwinter Meeting Affairs Committee, he was responsible for the second largest Meeting in the Society's history.

Dr. Solfronk was Program Chairman of the 1951 Midwinter Meeting and Chairman of the Membership Committee for the parent Society. He served the Englewood Branch as Vice-president and Treasurer and the American Dental Association as delegate and as an alternate delegate.

Active in the civic affairs of his section of the city, Dr. Solfronk has worked for years as a member of the Board of Directors of the Southtown Y.M.C.A. and as Chairman of the Communities Y.M.C.A. Dr. Solfronk's main interests in life outside of dentistry and dental affairs are his charming grandchildren, fishing and bridge. His white marlin caught in 1953 off of Bimini in the Gulf Stream was a near record there.

For the busy year ahead, we wish him all the best of luck.

VICE-PRESIDENT

Dr. L. W. M. Hughes, newly-elected Vice-president, is familiar with Chicago Dental Society affairs, having just finished a busy year as its Secretary. He graduated in the University of Illinois College of Dentistry Class of 1922, served on the Executive Board and as President of the Alumni Association. He is a Life Member and Past Grand Master of the Chicago Graduate Chapter of Delta Sigma Delta. He is a member of Omicron Kappa Upsilon and a Fellow of the International College of Dentists. He is a Charter Member of the South Suburban Branch and has served the Branch as Treasurer, Secretary and President. He has served the Chicago Dental Society as Director from the South Suburban Branch from 1938 to 1941, Chairman of the Legislative and Law Enforcement Committee, Chairman of the Finance Committee, Chairman of the Publicity Committee and Chairman of the Enter-

Dr. L. W. Michael Hughes, Vice-president

tainment Committee. He has served the Illinois State Dental Society as Chairman of the Committee on Infraction of Laws and as Chairman of the Committee on Federal Health Legislation. In addition he was ten times a delegate to meetings of the American Dental Association. He is a member of the Chiselers Club, Olympia Fields Country Club, and the Chicago Athletic Association.

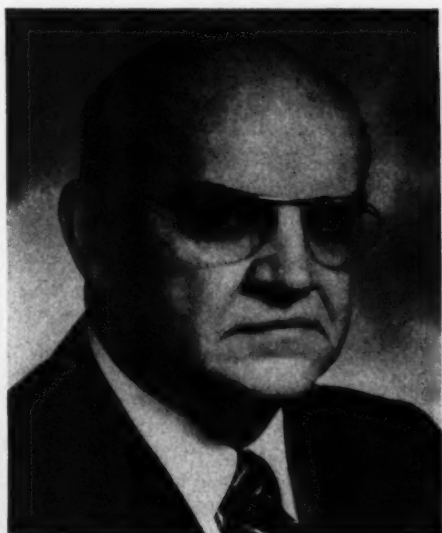

SECRETARY

Walter Dundon was born in Norfolk, New York and was raised in the Adirondack Mountains. He was graduated in 1927 from the Chicago College of Dental Surgery and immediately started practice in Hyde Park but in recent years has practiced in the Loop at 111 North Wabash Avenue. He has been a member of the Kenwood-Hyde Park Branch since 1928, serving on many committees of the branch, as its Vice-president, and as Director to the Chicago Dental Society from 1948 to 1951. Very active in the parent society, Dr. Dundon has been a member of the Federal Health Legislation Committee, chairman of the Legis-

lative and Law Enforcement Committee and served as Treasurer in 1952-53. For the Midwinter Meetings he has been vice-chairman of both the Publicity Committee and the Program Committee and was chairman of the 90th Midwinter Meeting Program Committee in 1955. For the Illinois State Dental Society he has served as vice-chairman of the Public Policy Committee and as a member of the Prosthetic Service Committee.

Also active in the affairs of the American Dental Association, Dr. Dundon has served on the Publicity Committee, as both an alternate and a delegate to several A.D.A. meetings, and in 1952 was elected to membership in the Council on Dental Trade and Laboratory Relations and became chairman in 1954.

Dr. Dundon is a Fellow of the American College of Dentists, a member of the Executives Club of Chicago, a life member of Delta Sigma Delta, and is very interested and active in aviation. He has been very active in the Odontographic Society of Chicago, having served as Vice-president in 1950-51, has been a member of the Board of Governors since 1951 and has recently been elected Secretary for the fifth year.

Dr. Walter E. Dundon, Secretary

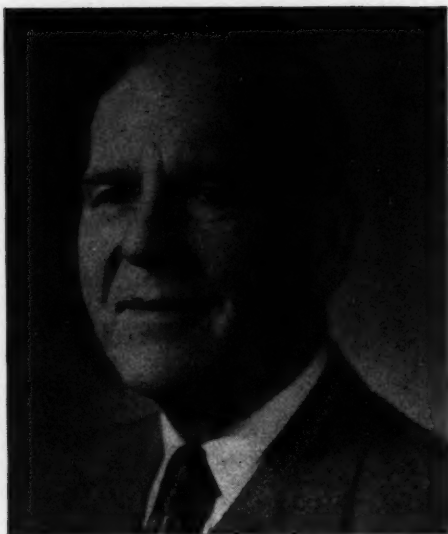

Dr. Harold H. Hayes, Treasurer

TREASURER

The new "Guardian of the Gold," Harold Hayes, was born in Chicago in 1902. He was educated in Chicago public schools, attended the University of Chicago, and was graduated from Chicago College of Dental Surgery, Loyola University in 1926. He is a member of the Psi Omega Fraternity and served as national Grand Master in 1938. He was elected to fellowship in the American College of Dentists in 1938 where he has been most active, having served the Illinois Section as chairman during the past year.

Harold was President, Secretary, Vice-president, Program Chairman and served in many other capacities in his Branch—Englewood. He has served the parent society as a member of many committees, as chairman of the General Exhibits and Monthly Program Committees, and as General Chairman of the 1952 Midwinter Meeting. He was director from Englewood to the Chicago Dental Society from 1947 to 1950. Having also served as a member and as chairman of the Finance Committee, he brings to the

Dr. Edward W. Luebke, President-elect

treasureship an excellent understanding of the Society's finances.

Harold has been active in many civic affairs, outstanding of which was his service to the Salvation Army Clinic at 31st and Wallace. For more than twenty years he served as its director, giving not less than one day a week for service at the Clinic in addition to taking an active part in providing professional men for that service; certainly an outstanding contribution to the welfare of those less fortunate.

Dr. Hayes is married and has a son best known as "Chunky." Both Lois and Chunk are well known to many of us in the Society. Harold is an enthusiastic motor boatman, water skier, fisherman and outdoorsman and he loves to sing.

The treasureship will certainly be in capable and experienced hands in those of Harold Hayes.

PRESIDENT-ELECT

The honored office of President-elect is to be held by Dr. Edward W. Luebke, who is well versed in the activities and problems of the Chicago Dental Society. He was born and raised in Clintonville,

Wisconsin, a garden spot of the North Woods with which we still must share our good and genial companion. Dr. Luebke was graduated in 1913 from the Chicago College of Dental Surgery, Loyola University and is a reserve officer of World War I.

A member of the North Side Branch since 1920, Dr. Luebke has served as a member and often chairman of most of its committees as well as Branch Treasurer, Secretary, Vice-president and President. He has also been most active in Chicago Dental Society affairs, having served as chairman of the Registration Committee, chairman of the Limited Attendance Clinics Committee, chairman of the Ethics Committee, chairman of the Membership Committee. He was our Vice-president during 1953-1954 and is the immediate past Treasurer.

Ed has served for the past five years on the Executive Council of the Illinois State Dental Society and on various American Dental Association committees including the Council on Membership. He has also been a member of the House of Delegates many times.

Dr. Luebke is a member of the Fédération Dentaire Internationale and the Psi Omega Fraternity. He is especially interested in hunting and fishing and in the study of wildlife and its habits.

NEW DIRECTORS

The new director from the Northwest branch is Ben P. Davidson, replacing B. Placek. Born in London, England at a very early age, Ben started grammar school in Newcastle-on-Tyne but completed grammar school and started high school in Newark, N. J. Finally reaching Chicago, he graduated from Murray F. Tuley High School. Dr. Davidson received his D.D.S. from the Chicago College of Dental Surgery in 1922 and was associate editor of "Dentos" in 1921-22. He has held all the offices in the Northwest branch, serving as its president in 1948. For the parent society, he has been on the Information, Health and Educational Exhibits and chairman of

the Ladies' Luncheon Committees of the Midwinter Meeting. He also served four years on the Dental Health Education Committee and has been an alternate delegate to the A.D.A. convention.

Dr. Davidson has been very active in B'nai Brith and has for the last four years been chairman of the Hillel Foundation Committee of the Chicago Council. He served three years as president of the Alpha Omega Illinois Alumni chapter and has also been a national trustee and regent of the fraternity. Long interested in journalism, Dr. Davidson served as branch correspondent three years when the FORTNIGHTLY REVIEW was called the Bulletin and has just completed three more years as branch correspondent. He is the father of two daughters, one teaching art in the public schools of Chicago while the younger daughter is a freshman at the University of Illinois.

Earl Elman replaces Walter Nock as director of the North Side Branch. A graduate of Northwestern University School of Dentistry in 1937, he continued his education in the Graduate Orthodontia Department of the University of Illinois School of Dentistry, receiving his Master of Science degree in 1940. At that time he was active in helping to organize an orthodontia department at the Michael Reese Hospital in Chicago and was a staff member from its beginning through 1949. He entered the Army Dental Corps in 1943 and returned to Chicago after thirty-eight months of service to resume the private practice of orthodontia. An active member of the Chicago Dental Society, Dr. Elman has

served on the Ethics as well as the Legislative and Law Enforcement Committees. He has also been a member of many Committees of the North Side Branch and has just completed a term as Secretary. In 1947 he was instrumental in organizing the Uptown Dental Forum and served as its first president. Dr. Elman is a member of Alpha Omega dental fraternity and was president of the Illinois Alumni Chapter in 1949.

From the West Suburban Branch replacing William Vopata as director is Clarence A. Hanson. He was graduated from Northwestern University School of Dentistry in 1923 and practices in Oak Park. Dr. Hanson has held all the offices in his branch and at present is serving on the board of directors. For the parent society, he has been on the Public and Professional Relations Committee and the Committee on Dental Health Education, having served as chairman for two years. He is also a member of the State Council on Dental Health.

Dr. Hanson is a member of the American Denture Society and the American Academy of Periodontology. He is a member of Omicron Kappa Upsilon fraternity and is a life member of Delta Sigma Delta. Very active in local and civic affairs, he has served two terms as president of the Oak Park Club and is past-president of the Oak Park Rotary Club. He is also a member of the Oak Park Chamber of Commerce where he has served on the board of directors. His hobbies are travel, photography and oil painting and at present he is a member of the board of directors of the Austin, Oak Park and River Forest Art League.

If Middlecoff can do it, why can't you?

NEWS AND ANNOUNCEMENTS

ALPHA OMEGA HOLDS BANQUET FOR PRESIDENT KLEIMAN

A testimonial banquet was held for President Sam Kleiman by his fraternity, the Alpha Omega, on Wednesday, May 4th, at the Covenant Club in Chicago. Tickets were limited to 100 and the dinner was oversubscribed long before the date.

Among Sam's many friends in attendance were the incoming Dean of the University of Illinois Dental School, Isaac Schour; Professor Arthur Elfenbaum of Northwestern, Dr. Saul Levy of the University of Illinois, Dr. Carl Greenwald, Chairman of the Board of Dental Examiners of the State of Illinois. These served as the frosting of a gathering that brought out a good cross section of Alpha Omega in Chicago.

An excellent dinner followed a cocktail party and then Ben Davidson, who did an outstanding job as toastmaster of the evening, guided an interesting program of, "This Is Your Life, Sam Kleiman." From Joe Lebow, as a classmate at C.C.D.S., through Gerson M. Gould, Al Sells, Morrie Schneider, and the final speaker—Mrs. Esther Kleiman, the five-minute talks were humorous, serious, provocative, and then plain homelike. As a final touch, Dr. Harry Hurwitz, the local President of A.O., presented Sam with an Alpha Omega plaque. A gift of a portable radio was then presented by the Chicago Chapter.

ENGLEWOOD GOLF OUTING

The annual golf outing and dinner of the Englewood Branch will be held on June 15th at Navajo Country Club, 123rd and Ridgland Avenue. Tickets may be obtained from either Mr. John

Brotherson or Dr. Zenon Krol. Plan to attend and enjoy a day in the open and a wonderful dinner.

NORTHWEST SIDE GOLF OUTING

The Northwest Side Branch will hold its golf outing and dinner on June 8th at Itasca Country Club. Tickets may be obtained from Chester Stypinski, Everglade 4-2442. Come out for a day of fun and good fellowship with your fellow dentists.

NORTH SIDE GOLF OUTING

The North Side Branch will have its golf outing on June 15th at the Nordic Hills Country Club. Golf and dinner will be \$7.50 (in advance). You may secure tickets from Clarence H. Peterson, Jr., 5153 N. Clark. A most enjoyable day is assured, rain or shine, and an excellent dinner to top it off.

WEST SIDE GOLF OUTING

Again the West Side has the first golf outing of the Society's Branches. It will take place on May 25th at the Midwest Country Club, Hinsdale, Illinois. Loads of prizes and a delicious dinner!

WEST SUBURBAN STUDY CLUB MONTE CARLO NIGHT

On May 17th the West Suburban Study Club would like the pleasure of greeting all the men in the area at its Monte Carlo Night. The fun will begin at 6:30 and during the evening a buffet supper will be served. For two dollars you will be able to eat all that you can hold. I am told that there will be all kinds of door prizes. Do come out to

(Continued on page 27)

EDITORIAL

SUFFER LITTLE CHILDREN

During the last fifty years dentistry has made great strides forward, so great that a modern practice has little resemblance to one a half-century ago. Crude technics, poor materials and inadequate training have made way to what we would like to consider as modern dentistry. In another fifty years, what we are doing and using today will probably be antiquated and the practice of dentistry then will radically differ from our so-called modern dentistry. Yes, it is true, our anesthetics are safer and more dependable, our dentures are esthetically beautiful and functionally sound, our operative skills are well-developed, and our knowledge of good dentistry is progressing in leaps and bounds. Only one thing has not changed in the last fifty years and that is our attitude toward children's dentistry.

Often the question of dentistry for children enters the conversations of shop when dentists get together. Out of five members of the profession, probably only one will say that he enjoys doing dentistry for children, but what do the other four have to say? The main complaint is that they cannot make it pay and their financial remuneration does not compare with working on adults. Other reasons are that the children are hard to work on, are nervous and jittery, have too much saliva and "why should I break my back working on kids now, hoping to have them as adult patients when everyone knows that the average practice has almost a complete turnover every five years?"

It may be true that the average practice does turnover rapidly, but do we not benefit greatly from previous experiences and knowledge imparted to our new patients from their former dentists? Is it not only fair that we do likewise to our present patients and prepare them adequately, even though we do not keep them?

We admit that sometimes children are slightly rough to handle, but a little of the old-fashioned horse-sense will go a long way in winning them over. When one thinks of the tremendous amount of suffering and mental anguish that can be avoided by early diagnosis and treatment, our potential for good is unlimited. We are also fortunate in this day and age to have excellent specialists in orthodontics and dentistry for children that are not only capable of this type of work but actually enjoy every minute of it. If you are unfortunate enough not to have the ability or knowledge of adequately taking care of children, at least be certain that they obtain the care of one that can.

Now for the financial aspects of children's dentistry: If we do the same quality of work on children that we do on adults, there is no reason why we cannot be paid the same fee. This may require some explanation to the parents but it can be done. Naturally, most of the dentistry is operative, not in the more lucrative prosthetic field and the net return cannot be expected to be as great. We must step on these so-called dental economists that advise against doing dentistry for children because it doesn't pay or if we do take them, to give them the old "barber shop" routine. If we consider our financial return as the most important part of our profession, then some day we are going to get a big shock. When the good Lord calls us to our final reward, He is not going to ask how much money we made as dentists on earth but rather did we say "Suffer little children to come unto me" or just "Suffer, little children."

Chicago Dental Society Adopts Catastrophe Hospital and Nurse Coverage

The plan of Hospital Insurance of Michigan Life Insurance Company which we adopted in 1948 is to be expanded to include additional payments for major hospital expense and nurse expense.

Our present hospital coverage has served the members exceedingly well, but there has been a demand for a plan which would also defray or partially defray the additional heavy expense of an extended period or repeated periods of hospitalization and the cost of private nursing service.

As you know, our present plan pays up to a maximum of \$1000.00 for a disability or several periods of disability which are the result of the same or a related condition. Thereafter, while the policy continues to cover hospital confinements they must be the result of other causes.

Your Insurance Committee has spent several months reviewing plans of Catastrophe or Major Medical Hospital and Nursing coverages which were submitted by various companies. Most plans were found lacking in the type of protection required by our members. Some companies required a specified percentage of participation, others were cancellable, had an age limit, or afforded no protection unless the benefits were used up within a specified period of time and still others required a sizeable deductible amount be applied to the claim before Company payment would begin.

Finally, the Insurance Committee with the assistance of Huntington & Homer, Inc. drew up a plan of Catastrophe Hospital coverage which would include private nursing service and which would tie-in perfectly with our present hospital plan. It was submitted to the Michigan Life Insurance Company for their consideration, which we are pleased to say was granted. The Insurance Committee then recommended the plan to the Board

of Directors, which in turn not only have agreed to the adoption of the plan but sincerely recommend it to every eligible member.

One of the greatest benefits of this new plan is for the member who has already used up his full \$1000.00 benefit. He shall immediately be eligible for the additional benefits as soon as the plan becomes effective on August 1, 1955, provided he applies for the protection while eligible.

Briefly, here is the plan:

Your present policy covers the first \$1000.00 of hospital expense the result of any one disability (the limit on the room is \$10.00 per day). For tuberculosis, functional nervous or mental conditions, or alcoholism the limit is \$500.00.

When this \$1000.00 is used up then the Catastrophe coverage begins to pay. It does not apply to the three conditions which are limited to \$500.00.

The Catastrophe coverage will pay up to an additional Four Thousand Dollars (\$4,000.00) as follows:

1. The expense actually incurred for hospital room and board, including special diets and general nursing service, not to exceed Ten Dollars (\$10.00) per day.

2. Eighty per cent (80%) of the expense actually incurred for hospital services and supplies, as set forth in Part 1 B of the policy.

3. Eighty per cent (80%) of the expense actually incurred for regular and customary charges made by a graduate registered nurse, other than a relative, for private duty nursing service rendered in a hospital or the established residence of the Insured and where such service is prescribed as necessary by the attending physician.

Indemnity will be paid only for expenses covered and which are incurred after the effective date, August 1, 1955.

(Continued on page 24)

Regular Meeting of the Chicago Dental Society

April 19, 1955

Conrad Hilton Hotel

Meeting called to order by President Kleiman at 8:00 p.m. and a motion to dispense with the reading of the minutes of the March meeting was made and carried.

Motion was made and passed approving the minutes of the March meeting as published in the FORTNIGHTLY REVIEW.

Under new business the following resolution recommended by the Board of Directors was read:

RESOLVED that the wording of Part (3) of Division a. of Section 3 of Article 17 of the By-Laws be changed from

(3) Health and Educational Exhibits: This division shall arrange for the presentation of health and educational exhibits.

To

(3) Projected Clinics: This division shall arrange for the presentation of projected clinics.

This Resolution will be published in the FORTNIGHTLY REVIEW and voted on at the next monthly meeting.

Dr. Kleiman next introduced twenty past presidents of the Society.

There being no opposition the President requested the Secretary to cast a unanimous ballot for the following candidates:

President-Elect—Edward W. Luebke
Vice-President—L. W. M. Hughes
Secretary—Walter E. Dundon
Treasurer—Harold H. Hayes

Mr. William Skach from the First National Bank was introduced and gave a short discourse on the Dental Budget Plan.

Dr. Olaf Opdahl, Vice-Chairman of the Monthly Meeting Program Committee, introduced Dr. Merrill G. Swenson of Portland, Oregon, who presented an essay on "Construction of Immediate Dentures."

The meeting adjourned at 10:00 p.m.

Respectfully submitted,

L. W. M. Hughes, *Secretary*

Regular Monthly Meeting

Chicago 2, Illinois

Gentlemen:

The recent announcement in the *Fortnightly Review* issue of April 1, 1955, with respect to a Dental Budget Plan being made available to members of the Chicago Dental Society, is of interest to me.

As a member in good standing of the Chicago Dental Society, I desire to take advantage of the Plan being offered and herewith request that the Agreement to be entered into between The First National Bank of Chicago and myself, together with information covering the details of the Plan, be forwarded to me.

It is my understanding that upon execution of the required Agreement I will return said Agreement to you for your acceptance and delivery to the Bank.

Yours very truly,

(Please print or type name and address below your signature)

ABSTRACTS

TEMPORO-MANDIBULAR JOINT DISORDERS

From the author's experience with over one hundred cases, it was concluded that most cases of temporo-mandibular joint disorders are due to acquired or inherent occlusal discrepancies. Whether the disorder is due to a single severe trauma or to repeated microtraumas, as in the case of malocclusion, it is best treated by conservative means and with the cooperation of the dental personnel involved. It is stated that the injection of cortisone reduces inflammatory changes within the joint. Although this procedure is only palliative and temporary, it is recommended for reducing inflammatory pain and trismus, thus allowing one to proceed with the program of occlusal rehabilitation. It appears that painful joints that give radiographic and clinical evidence of irreversible changes might eventually require surgical treatment. It is the author's opinion that meniscectomy does not provide the satisfactory result desired—that condylectomy is the preferred procedure. This operation does not necessarily produce the deformity so often ascribed to it; if certain precautions are taken and sound surgical technique employed, facial paralysis is negligible. — *THE TEMPORO-MANDIBULAR JOINT*, by Albert A. Antoni, D.D.S. *The Canadian Dental Association Journal*, Feb. 1955.

O.C.L.

MEASUREMENT OF FREE-WAY SPACE

It appears very evident, from the material presented in this essay, that no single scientific and absolute method of determining and measuring an exact free-way space is available at the present time. The intelligent prosthodontist will

rely on more than one technique, or on a combination of techniques, to reach this end. — *FREE-WAY SPACE*, by Alex Coulouriotes, A.B., D.M.D. *The Journal of Prosthetic Dentistry*, March, 1955.

O.C.L.

SURGERY IN PERIODONTAL DISEASE

Dr. Irving Glickman, of Las Vegas, Nevada, insists that if surgery is necessary to treat periodontal disease it should be done at the onset of treatment. Trying other means of treatment, such as scaling or curettage that may not eliminate the pocket, is poor periodontics when the operator knows surgery would be successful. He also insists scaling and curettage is not a necessary aid before surgical procedures. In the treatment of periodontal abscesses, treatment is determined by whether the infection is in the lateral wall of the pocket or in the deeper tissues. In the lateral wall type the abscess may be removed by gingivectomy. The deeper seated abscesses are eliminated by incising when acute. After the acuity has receded an operation is performed. This permits ease of treatment by a better view of the surgical field. Failures of treatment in periodontal disease are usually due to lack of correct oral physiotherapy or the incomplete removal of calculus.

Bone loss may occur in chronic destructive periodontal disease because the normal anabolic processes have become impaired and not because there is inflammation, trauma, or added destruction. When you have a systemic disturbance and there is bone loss in the jaws, you can be assured there is comparable bone loss in other bones of the body. The bone factor is important in the maintenance of the height of alve-

NEWS OF THE BRANCHES

NORTHWEST SIDE

LADIES' NIGHT
WEDNESDAY, MAY 18
TAM 'O SHANTER COUNTRY CLUB
COCKTAILS—6:30 P.M.
DINNER—7:30 P.M.
INSTALLATION OF OFFICERS
RESERVATIONS * CALL
STAN BRZEZINSKI, NA-2-4950

Our usual Ladies' Night will try to outshine our last year's effort. The dance band is all keyed up and ready to make with the music, including the Latin. Stan Brzezinski is standing by waiting for your check. Call him at NA-2-4950 and make his job a little easier. . . . And a little advance notice on our annual golf outing from Chet Stypinski. Wednesday, June 8. At Itasca Country Club. Dinner and prizes. Watch for the bulletin for details; mark your book NOW. . . . Introducing your chief correspondent for the coming year. Lee Schwartz. Loyola Class of 1950. Served as instructor at Loyola following graduation. Up-and-coming member in the branch. Help him with news items and the like. He will try to fill the vacancies. His number, easily remembered, SPaulding 2-8282. . . . Ben Davidson and Morrie Schneider were co-chairmen at an Alpha Omega party at the Covenant Club which honored our Chicago Dental Society president, Sam Kleiman. . . . Elmer Imber has been elected president of the Chicago Council of B'nai B'rith Lodges. . . . The branch extends its sympathy to Casimir Smyk on the loss of his wife. . . . And so two years of column writing come to an end. It has been a lot of fun, even though the quest for news has been better training for a job as a private eye than of an author. Or maybe it's the branch. Nothing ever happens on the Northwest Side. A quiet, easy-going, non-excitable bunch of boys. They buy an occasional car, or

take an occasional trip, but take it all as a matter of fact. So what makes news on the Northwest Side? I don't know. Stay well. . . . **DON'T FORGET THE CHICAGO DENTAL SOCIETY GOLF OUTING, JUNE 22nd, AT GLENDALE COUNTRY CLUB!**—Ben Davidson, Branch Correspondent.

ENGLEWOOD

Well, there's only ONE way to put ONE little boy in his place, and that's to do it at home. So here goes; Little Pi Eyed Ro Waska has come home from Oklahoma where he was the guest of Dan Lynch, President of the American Dental Association. And then he snarls, "Anybody top that!" Why, sure thing, I am back from Oklahoma where I was the guest of George Pulley the President of the Northwest National Bank, and a cousin of Joe Pulley, Northwest side. Take your choice of presidents, boys. . . . Ed Scanlan back from the Florida sunshine with all that sinewy tan that calls for work. . . . Hear the wedding bells rang for Harold Clinite on a sub-zero day in February; and here's a real sincere wish for all that's good. . . . Plan to make the Englewood outing at Navajo Club at 123 and Ridgeland on June 15; all you need for good eats, good time, good prizes and good fellowship is one of the good tickets from John Brotherson or Zeke Krol. By the way, I sent Zeke a patient and he asked her why she didn't see a dentist! . . . Been to the Eldorado oil fields and it is spectacular, also hear that Jack Breuner, formerly of West Side has a rig and lots of oil. Counted eighteen wells in one small area. They may some of them belong to Malcolm Brooks. . . . See you at Navajo. . . . **DON'T FORGET THE CHICAGO DENTAL SOCIETY GOLF OUTING, JUNE 22nd, AT GLENDALE COUNTRY CLUB.**—Webster Byrne, Asst. Correspondent to Little Wo.

WEST SIDE

The most important news in coming events is the West Side Branch golf outing which is to be held at the Midwest Country Club, located at 35th and Cass Avenues, Hinsdale, Illinois. The first and finest outing of the year—a good chance to meet your friends out in the open—brand new club house—plenty of prizes—good food, rain or shine. If transportation is a problem, please call our Golf Committee. Remember the date—May 25th. . . . Call in any news items to our new president, John Reilly, so that he may pass them on to his new scribe. . . . **DON'T FORGET THE CHICAGO DENTAL SOCIETY GOLF OUTING, JUNE 22nd, AT GLENDALE COUNTRY CLUB.**—*Acting Correspondent, Fred N. Bazola, Branch President.*

KENWOOD-HYDE PARK

We are very sorry to report that Eric Falkenstein is in the hospital again. We hope that his visit will be a short one and that he has a speedy recovery. That is one time that we wish a person to speed and hurry, etc. . . . Now I have heard everything, what would you do with a swimming pool in the back yard? Oh, you would swim in it. Now, what would you do with a totem pole in the back yard? After you have figured that one out do a little more figuring and tell me what you would do with TWO totem poles. Now that you have the answer for that one, tell me whom you would be trying to scare with these totem poles; they light up. It seems that Stanley Korf got a good bargain (?) when some place up north was closing and now the poles are parked in his back yard. Just think of all the fun one could have with those poles, have Graham Davies over at the party and when it got dark make the poles wink (lights) and watch the girls think that—well maybe that would be unfair since we don't know if the gals know him, but I bet that Stanley has thought about it

and maybe we are putting thoughts into his mind. Maybe we had better warn Graham about this plot. . . . I knew that our branch had some smart guys but now I am finding out that some of them can write as well. It has been reported to me that one of our members has written a paper that has won 2nd prize. Milt Braun has written a paper which he will read in May at San Francisco. This was sponsored as The Research Contest of The American Association of Orthodontists and Milt won second prize. We are very happy for you, Milt, and we hope that this is not the stopping point and that you will continue to do not just 2nd prize, but 1st prize honors. Have yourself a good time and give us a report on the meeting. . . . It is hard to say at this time just how everybody enjoyed the Ladies' Night because this is being done before, but I am sure that everyone will enjoy the program very much. . . . Say, have you sent in the papers for the Dental Budget Plan? Well, boy, get on the ball and send it in so that you can be with us, get going right now. . . . **DON'T FORGET THE CHICAGO DENTAL SOCIETY GOLF OUTING, JUNE 22nd, AT GLENDALE COUNTRY CLUB.**—*Warren H. Lutton, Branch Correspondent.*

NORTH SUBURBAN

No news; hence no column! Just a reminder of two golf dates—our branch golf outing on June 15th; and the Chicago Dental Society's on June 22 at Glendale Country Club.—*F. S. Verink, Branch Correspondent.*

WEST SUBURBAN

I hope that all the men in the area will feel that they have gotten a personal invitation to the Study Club's Monte Carlo Night on May the 17th. All of your friends will be there so why not come out yourself. It will start at 6:30

CATASTROPHE COVERAGE

(Continued from page 12)

Each insured eligible member of the family group individually is protected for \$4,000.00.

At present the eligible members are those insured under the All-Star Hospital policy who are active members of the Society practicing dentistry. The Company will also consider applications submitted by active members in practice, who are under age 50, for the All-Star policy alone or with the catastrophe coverage included.

The cost for this additional protection is very low and each eligible member should avail himself of the opportunity to purchase same as soon as it is offered.

Full details in connection with the plan will be furnished to you within a few days by Huntington & Homer, Inc.

We feel that our Insurance Committee deserves an abundance of credit for their efforts in providing us with this excellent and much needed protection.

NEWS OF THE BRANCHES

(Continued from page 17)

unless you come out earlier for golf. . . . I was pleased to pick up a little news about our friend, Merrill Shepro. "Shep" has been assigned to the Army Medical Service Graduate School at Walter Reed Hospital in Washington. He is going to give graduate training in oral surgery and oral pathology. I understand that he is quite pleased with his job. "Shep" was back in Illinois on May the 9th to give a table clinic at the State meeting in Peoria. He discussed root resections. When he gets back to Illinois for good he will move into his new three-chair office in LaGrange Park, which is being built for him now so that it will be ready when he returns. . . . I am told that "Roby" Robeson was seen tearing through Franklin Park driving a big snazzy new buick and yelling "Eureka," at the top of his voice as he headed for Eureka Springs, Mo. for a week's vacation. . . . The men of the area are glad to welcome into the

fold Ronald Gilbert who is setting up his practice in Clarendon Hills. Before he got out of the Air Force he had the rare chance of being able to fly around the world with his Commanding General. I guess they stopped almost everywhere on the trip and it is rumored that he was so impressed that he almost signed up again. . . . Speaking of traveling, our friend John "Happy" O'Connell was also seen zipping around the area in a new Buick. I am told that he didn't get a red one to match his hair, because dark colors are harder for the speed patrol to catch. . . . It seems that if you haven't gone to Florida or don't own a Buick you just aren't a successful dentist. George Fleming was just returning from the former in the latter when that beautiful new Buick convertible tossed out a connecting rod. Due to the strikes in the area he was forced into taking a taxi all the way home from, I believe, Missouri. . . . D. H. and Mrs. Browning went South to Mississippi to see the azaleas but I understand that it was a little cold for the

33 YEARS AND 40,000 PORCELAIN THIMBLE BRIDGES

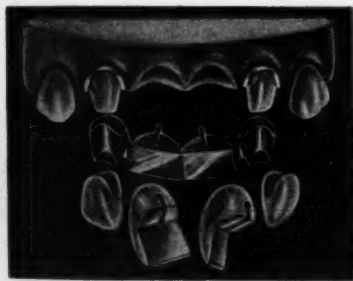

Illustration depicts Gold framework and porcelain units that constitute a Porcelain Thimble bridge.

TIME TELLS—During the past 33 years we have successfully constructed more than 40,000 Porcelain Thimble Bridges. These beautifully natural looking Porcelain bridges have great patient appeal. Being reinforced with gold they have the strength and endurance of a cast gold bridge. All units are interchangeable. Requirements are the same as for jacket construction. We finish complete bridge from one set of impressions.

27 East Monroe

CEntral 6-1680

Chicago 3, Illinois

best showing of this plant. . . . The Study Club was quite happy to see 69 men out to hear the lecture on high speed. That was really swell. . . . Raleigh Williams is going out to San Francisco quite soon for a meeting of orthodontists. Who knows, he might sign in at the registration desk and then even go to some of the lectures. It's been done, I'm told. . . . Stan Tylman is going to a dental meeting in Toronto, Canada. He intends to compete in an Elks' bowling contest on the way. We hope he knocks 'em dead. . . . Don Lemon just got back from Florida. He had to hurry back since his tan from the last trip was beginning to fade. . . . Roy Sanden said that he had a swell time on his trip to Washington and New York. What surprises me is that there are ever any dentists in the area to take care of patients' teeth. It must be the poor peasants like myself that have to stay home and grind away. . . . **DON'T FORGET THE CHICAGO DENTAL SOCIETY GOLF OUTING, JUNE 22nd, AT GLENDALE COUNTRY CLUB.**—*Bob Randolph, Branch Correspondent.*

NORTH SIDE

Let me start off this column by thanking Herb Krummel for the very fine job of editing while I was on my vacation with my family following the sun (not son—we have three daughters!) . . . The North Side Branch members should be congratulated on the excellent showing

and interest at the recent election. 419 men voted—this was the greatest number within memory to have voted in a local election. Our new president, Herb Gustavson, at a "press conference," tells me there are three committees that he can appoint. For clinic day chairman he has named Art Duxler, who certainly can give Andy Frain some pointers on the handling of crowds. For sports chairman "Pat" Peterson, and his committee consists of Bob Peterson, Bill Osmanski and Elmer Mertes. They already have gone to work on our golf outing which will be held June 15th at Nordic Hills. Golf and dinner total cost \$7.50 in advance—\$8.00 at the gate. Contact "Pat" now and save a half a buck! This committee is also planning a lot of surprises for the day, and I am sure you will not want to miss one of the greatest outings ever. . . . Congratulations to Murray Hoffman on opening his nice new office for oral surgery, also to Ulysses Argianas who is in the process of building a medical center. . . . Our busy president Herb certainly gets around—he just came back from the Michigan State meeting where he gave a clinic on Hi-Speed and the Vacudent. Also at the same meeting were Bob Laff, Will Gordon and Dayton Berk. . . . Isadore Shapiro will exhibit his hobby at the Illinois State meeting. . . . Earl Elman cut short his vacation at Pere Marquette State Park to make the all-day session of the board meeting of the Chicago Dental Society—it must have been serious business! Earl, who is national secretary of the OASI for

AGENTS FOR THE DISABILITY AND HOSPITAL PLANS OF THE CHICAGO DENTAL SOCIETY

dentists, tells me that Frank Hurlstone is chairman of the national legislation committee of that group and also of the Illinois component. By the way, the Illinois poll for OASI was 7-1 in favor. Alfred Drew is a member of the finance committee of this national group and Bob Pollock, our state treasurer, is also active in OASI. By the way, the president of the National group, J. G. Riley, is president-elect of the Washington, D.C. Dental Society. At a meeting in Chicago last week there was representation from Washington, D.C., N.Y., Pa., Ohio, Mich., Minn., Iowa, and Ill. . . . Hermen Medak has been appointed North Side Branch Chairman of the Civil Defense Committee. . . . John Anderson will give a clinic at the West Suburban branch very shortly. . . . Hal Rubin just returned from his honeymoon in Florida. . . . Warren Gerber and Morton Rosen will represent North-Western Univ. with the Cleft-Palate Group at the National Assoc. meeting at Boston. . . . The Uptown Dental Forum is going to have an auction of White Elephants that have been accumulating on your shelves for years—I mean dental equipment and instruments over which you enthused for a week or two and then put aside—perhaps someone else might have use for them. Anyone interested get in touch with Bill Semiloff, LO. 1-7729. . . . **DON'T FORGET THE CHICAGO DENTAL SOCIETY GOLF OUTING, JUNE 22nd, AT GLENDALE COUNTRY CLUB.**—*Joseph W. Gordon, Branch Correspondent.*

NEWS AND ANNOUNCEMENTS

(Continued from page 10)

meet your friends and have a good time. Many of the men are coming early so that they can play a little golf before supper. This will take place at the Woodridge Country Club, Route 53, 1½ miles South of Lisle. It will be Tuesday night, May 17th, at 6:30. Come and bring a friend.—*Bob Randolph.*

NAVAL RESERVE MEETING

The next regular meeting of the Volunteer Dental Companies, United States Naval Reserve will be held Friday evening, May 20th, at the Naval Armory, Randolph Street and the Lake. Please note that this is the third Friday rather than the usual fourth Friday of the month meeting date.

Our speaker will be Mr. Joseph Bankowski, who was with the Internal Revenue Service for sixteen years as an agent and instructor in tax matters. His topic will be "Income Tax Pointers." A question and answer period will follow his talk. Come out and have your income tax questions answered. Visitors and guests are welcome.—*A. B. Nordlie, Program Officer.*

C.D.A.A. NEWS

A grand climax for the C.D.A.A. 1954-1955 season will be the Dinner Meeting at the Columbia Yacht Club, Monroe St. and the Lake, on Thursday, May 26. Cocktails will be served at 6:30 p.m.

Picha, George, 5946 W. 22nd Rd., Cicero; member West Suburban Branch; University of Illinois College of Dentistry, 1928; died November 22, 1954.

WALTER C. MAYLAND 1891-1954

Dr. Walter C. Mayland was born in Austin, Minnesota, one of a family of fourteen children. He entered the University of Iowa in 1910 and transferred to Northwestern University in 1911 from where he was graduated in 1913. He specialized in oral surgery, exodontia and x-ray with offices at 55 East Washington Street in Chicago's Loop. He was on the staff of the Henrotin Hospital.

Dr. Mayland was a member of Xi Psi Phi fraternity, belonged to the Mason (32 Shriner, Consistory), and was on the Executive Council of the Illinois Dental Society. He was Vice-president of the Northwestern Alumni Association in 1938 and was Chairman of the Class of 1913 for 42 years. He will be missed as a friend and brother to all.

Dr. and Mrs. Mayland had visited their daughter, Mrs. Marjorie Elting, Jr., and grandson John, in Cairo, Egypt. While returning home, they were killed at Prestwick, Scotland, in a plane crash on Christmas Day. Funeral services were held December 31. Our deepest sympathy is extended to their families.—*Julius Ferm.*

ABSTRACTS

(Continued from page 16)

olar bone and the capacity of alveolar or bone to withstand functional forces. The amount of local irritation, age, and condition of the alveolar bone determines for the clinician the status of the bone factor.

Some bifurcations and trifurcations are treatable and some are not. The prognosis of teeth with these involvements are better than single rooted teeth with the same amount of bone destruction. Pain is often present in trifurcation involvements. Radiographs are a poor means of making a diagnosis. Rules in detection of bifurcation and trifurcation involvements are:

1. When there is extensive bone loss around any root of a multi-rooted tooth.
2. Any thickening of the periodontal membrane in bifurcation or trifurcation area.
3. Any change in radiodensity of the bifurcation or trifurcation area.
4. When there is a horizontal line across one root in the roentgenogram.

Treatment is divided into four types. No bone is removed in treatment of these conditions, however, all the tissue is removed to the bone level.—*Abstract from the Journal of the Western Society of Periodontology, Sept. 1954.*

It's actually easy to save money—when you buy United States Series E Savings Bonds through the automatic Payroll Savings Plan where you work! You just sign an application at your pay office; after that your saving is done for you. And the Bonds you receive will pay you interest at the rate of 3% per year, compounded semiannually, for as long as 19 years and 8 months if you wish! Sign up today! Or, if you're self-employed, invest in Bonds regularly where you bank. There's no surer place to put your money, for United States Savings Bonds are as safe as America!

***Safe as America—
U.S. Savings Bonds***

The U.S. Government does not pay for this advertisement. It is donated by this publication in cooperation with the Advertising Council and the Magazine Publishers of America.

A bullet sang through her sleeve

AFTER THE BATTLE of Spotsylvania, she wrote, "I have cooked ten dozen eggs, made cracker toast, blanc mange, arrow-root, washed hands and faces, put ice on hot heads, mustard on cold feet, written six soldiers' letters home, stood beside three death beds . . . It has been a long day . . ."

But no longer than the terrible day at Antietam, where as Blue and Gray fought to a bloody standstill, a bullet sang through her sleeve and killed the wounded soldier she was caring for.

Or Fredericksburg, where the dying lay frozen to the ground, and a shell fragment tore her clothing but could not frighten her from working while the battle raged.

It is not so surprising that after the war's end, this slender determined woman went on to found the American Red Cross, almost singlehanded. For Clara Barton had become an expert at meeting grim disaster.

Like Clara Barton, today's Americans still meet trouble with skill and resolution. For the qualities that made her great still live in the American people. And the simple fact that these people are the real guarantee standing behind our country's Savings Bonds tells you why Bonds rank high among the world's finest investments.

If you're not already doing so, why not join the millions of your fellow citizens who are now guarding their futures—and their country's—by investing in, and holding, United States Savings Bonds? Start today!
